Licking College.

This educational institution is located at Licking, Texas county, Missouri, a beautiful little town of six hundred inhabitants. The location is near the summals of the Ozerks and is free from all material inflaences. The school is about two years old, but has already met with phenominal success. Its enrollment last year was over a hundred sta dents. The school building is a commanding edifice, two stories high, containing eight large, elegant rooms, well equipped and furnished with molern appliances. We understand, from residents of the county who enteed. formerly resided here, that it is a most desirable school for persons in moderate circumstances who are seeking an education. Tuition and delegate to the Silver Convention board are reesonable. The esta which meets at Chicago next Wednes. logue will be sent to any person re- day.
